

The European Journal Legal Education Report ELFA AGM 2008

Board of Editors

In 2006 Professors Norbert Reich and Stephania Barriati retired from the EJLE Board of Editors. This year Professors Dominique Breillat and Frans Vanistendael have retired as full time professors. This means that numbers on the Editorial Board are now quite low. I would like to propose the creation of an wider EJLE Advisory Board where all (willing) ex-editors could be placed. In this way they could be still present assisting on occasion and giving advice where needed. We also need to refresh the EJLE editorial Board with new members. This should also help improve the flow of articles and other material to be published. After discussions, so far, the following names have been suggested and are approved by the EJLE Editorial Board:

- Lars Skjold Wilhelmsen (Bergen, Norway)
- Manuel Bermejo Castrillo (Madrid, Spain) (current ELFA Board member)
- Peter Maertens (Leuven, Belgium)
- Maja Sersic (Zagreb, Croatia) (ex-ELFA Board member)
- Veronica Rebreanu (Kluj, Romania)
- Cord Brüggmann (Secretary General of the Deutscher Anwaltverein (DAV), Germany)
- Jean-Philippe Lhernould (Poitiers, France)

Electronic version

All issues of the European Journal of Legal Education are now available electronically and therefore searchable on-line to subscribers. Tables of contents and abstracts are available to all at www.informaworld.com/ejle. Access to the Journal is also available via certain EBSCO packages and other third party content providers and indexing services are under consideration by Routledge to ensure high levels of visibility. Routledge have their own subscription electronic services. ELFA members will continue to get their print copy and the ELFA representative from each institution will have individual access to the electronic version.

Contributions

See attached note

Marketing

The marketing plan for 2008 is attached. Routledge are keen to expand their marketing activities in continental Europe and would welcome any ideas or leads you may have regarding the marketing of the EJLE in your jurisdictions. If there are conferences in which legal education and training feature, it would be very helpful to know, preferably well in advance. These are a potential source of contributions and also a marketing opportunity for the Journal.

Duties of Editor's
